

SIDI MTB EAGLE 10 BLACK SAGE, A NEW LTD COLOR TO SET THE MOOD FOR 2021

Sidi started the new year by launching another unmissable hue for the MTB Eagle 10 shoes.

Maser, 18th January 2021 - Sidi starts the 2021 in style with a brand new limited edition for its MTB Eagle 10.

Black sage is a color that conveys a piece of mind and leads back to the deep bond existing between men and nature. Nothing better than a minimal and quiet sage shade to strengthen this relationship, starting from the early days of the year, and inspire new adventures to align all the chakras during a more than perfect ride.

This neutral and relaxing tone perfectly matches with the outdoor look of these shoes, giving a classy twist to every bike outfit.

Sidi MTB Eagle 10 in a nutshell

The Sidi MTB Eagle 10 have been created to provide grip and protection on all terrain – cross-country, gravel, cyclocross – while offering outstanding robustness and durability over time. The comfort of these shoes is guaranteed by innovative Sidi patents, such as the robust Tecno-3 and the Soft Instep Closure System 4. They are made with Microtech Microfibre - a light, breathable, water-resistant and eco-friendly material. They feature the MTB RS17 sole, which is the result of an optimal mix of stiffness for pedaling and ideal flexibility for comfortable walking. Made with nylon and TPU lugs expressly shaped to ensure great grip and high stability, this sole is also lighter, performing, and facilitates mud dispersion. The toecap is replaceable and the shoe is toe-spike compatible to improve traction on particularly tricky terrains.
