

Storm will be the protagonist at the new MV Agusta store in Rome
A tasting dedicated to Made in Italy excellence

Susegana, 11 novembre 2021 - The partnership between Storm and MV Agusta continues in the name of a unique multi-sensory experience. This time, the charm of the capital city will be the background to the tasting organized by the historic coffee roastery Caffè Marziali in the store of the Schiranna's brand, inaugurated last September.

The appointment is for Friday, November 12th, in Piazza Carlo Magno. Visitors will admire the latest MV Agusta models while tasting the new coffee lines, specialty coffees, and coffee brew prepared with Storm machines. An exclusive coffee truck, an original Volkswagen from the 1960s, will also be set up for this occasion.

In addition, from 3 pm to 7 pm, special coffee drinks will be served to visitors.

Custodians of craftsmanship and tradition, the two brands will work together to create a customer experience that will fully involve the participants and make them feel at the center of a world designed to amaze them.
