Kraśnik Lubelski is the original part of the town where all historic buildings lie. One of the greatest attractions is the castle, built in the 14th century and located northwest of the town. It was built on a square plan atop a suggestive hill surrounded by marshes at its foot. Kraśnik is also famous for production of roller bearings thanks to the largest company in the city that exports to most of the world today.

This Renaissance castle is atop a hill which rises to a height of 270 metres above sea level overviewing all the city of Przemyśl. Also named Casimir Castle, it was erected after 1340 by King Casimirus the Great. In its courtyard you can enjoy the remnants of the old rotunda and palatium from the time of King Bolesław I the Brave. The castle, renovated in the 16th century in the Renaissance style, now houses auditorium of the Aleksander Fredro Amateur Drama Company, the oldest in Poland amateur drama group.
