

**Astoria at Sirha 2023 with the vintage lines of the Sabrina professional espresso machine**

**The Treviso brand lands in Lyon from 19 to 23 January for five days of design, elegance and technology.**

Astoria returns to Lyon for the twenty-first edition of Sirha, the trade fair that brings together the best of what's new in the world of catering and food. A new opportunity, therefore, to share the brand's philosophy and the culture of espresso in a workmanlike manner with the general public.

The star of the Astoria stand will be the vintage lines of Sabrina, a machine with great personality, inspired by the Sixties with sinuous and harmonious lines, emphasised by touches of light on the side panels. The chrome-plated covers give it a style that is both gritty and refined at the same time, while the graphical display allows you to visualise and monitor the delivery progress. The chrono function allows you to monitor the dispensing time per group and the icon-based menu is intuitive and immediate, allowing convenient navigation through the menu in touch screen mode.

Astoria awaits all enthusiasts at stand 7C85 at the Euroexpo in Lyon from 19 to 23 January.
