

**Wega tells its story at Sirha 2023 with the Polaris coffee machine
The Treviso-based brand will be at the Lyon trade fair from January 19 to 23.**

Wega is preparing for the twenty-first edition of Sirha Lyon, which once again opens its doors to the world of catering and food with Polaris, a famous machine from the range of the historic Treviso brand.

Polaris is a reliable machine with character, distinguished by an aerodynamic bodywork - capable of giving a futuristic tone to environments - as well as a push-button system and a special graphic play enhanced by LEDs on the side bodywork.

Polaris' features are numerous and convenient, such as the programming of 4 dosages per group, the dispensing buttons and a programmable hot water dosage drawer. A guarantee for professional, high-quality results in every situation.

Wega therefore awaits visitors at stand 7C85 at the Lyon Euroexpo from 19 to 23 January to discover the features of one of the most popular products in its range.
