

GEOGRAVEL. TUSCANY LE STRADE GRIGIE

23/24 September 2023

FSA – VISION : OFFICIAL PARTNERS OF GEOGRAVEL TUSCANY 2023 ***FSA and VISION official partners of the first edition of the new gravel event conceived by Paolo Bettini scheduled from 22nd to 24th September 2023 in Pomarance (PI)***

GeoGravel Tuscany

Geogravel Tuscany is the first gravel experience dedicated to the Geothermal area that takes participants to discover the most fascinating dirt roads in the Metalliferous Hills, also known as the "Grey Roads". Born from an idea of the Olympic champion and multi-world champion Paolo Bettini, this is a journey through olive trees and Mediterranean scrub, ancient villages and enchanting fortresses, united by the stunning medieval town of Pomarance, the authentic heart of the event. In the background, a unique territory where the hot heart of the Val di Cecina boils, among geysers and lakes that even inspired Dante's Inferno and that still fascinates riders eager to go on great adventures.

Mirrors of crystal-clear water lost in uncontaminated woods, trails light years away from civilisation, a glass of red at sunset and all the authentic flavours of the hinterland. Parts of Tuscany you have never seen, dedicated to those stories yet to be written.

[Here](#) are all the specifications of the four planned routes, information and registration methods.

FSA

Full Speed Ahead (FSA), manufacturer of components for world-class bicycles for over 20 years, has for years now focused on the launch of products dedicated to the off-road world, i.e. Cross-Country (XC) and Gravel, as well as Down-Hill and the entire Trail, Enduro world (both traditional and electric).

Main sponsor of the most important annual MTB event in Italy, the FSA BIKE FESTIVAL, FSA supports many of the key players in the mountain bike world, as well as the World Tour road teams.

For this, FSA has launched a line dedicated to the Gravel world: AGX.

- Wheels: NS AGX i25 - [LINK](#)
- Handlebar: K-WING AGX - [LINK](#)
- Handlebar: A-WING AGX - [LINK](#)
- Stem: VAS - [LINK](#)
- Seatpost: FLOWTRON AGX - [LINK](#)
- Crank: GOSSAMER AGX+ - [LINK](#)

VISION

With an unwavering commitment to quality, technical excellence and, above all, attention to the price point, the brand has earned the trust of professional cyclists and enthusiasts alike. VISION is dedicated to elevating the cycling experience through its extensive product range, which includes aerodynamic carbon fibre wheels, advanced drivetrains, handlebars and numerous other components designed to optimise performance in any terrain.

Coming off its success at the Tour de France 2023, it proved to be an outstanding opportunity to demonstrate component superiority. A close contact and technical partner of major teams including the World Tour Jumbo-Visma, EF Pro Cycling, Bahrain Victorious and Israel Cycling Academy.

VISION, however, has not only left room for the Road world but, from its 30 years of experience, has developed wheels dedicated to the Gravel world of all levels, considering:

- Metron 30 SL Disc Clincher or Tubular - [LINK](#)
- Metron 45 SL (wheel set) - product link - [LINK](#)
- SC 30 - [LINK](#)
- Trimax i25 DISC - [LINK](#)
- Trimax AeroGravel i23 Disc - [LINK](#)

Vision's range of products and accessories covers the main performance disciplines such as: Road, Gravel and Triathlon with a wide collaboration of professional athletes and teams.
