

Uragan at Host 2023 with its revolutionary line dedicated to professional cleaning.

Visitors will have the opportunity to admire and try out the dishwasher Uragan 40, which will be in operation on the stand.

From 13th to 17th October, the most important event for the Ho.Re.Ca. sector is back. At Host 2023, Uragan will be presenting the main models in its range dedicated to excellence in professional cleaning.

Visitors to the stand will be able to see the Uragan 40 in action, a product that, thanks to its compact dimensions, offers high performance for small spaces. It features a complete double wall on the side and is suitable for washing glasses and coffee cups.

Next to it you can find the Uragan 50, a practical under-counter dishwasher, that can be used both as glasswasher and dishwasher

Designed for various settings such as industrial kitchens and canteens, you will also see Capotte, which delivers maximum cleaning results with the minimum use of time, manpower, and space.

In collaboration with EuroCave, a leader in the production of wine coolers, will demonstrate how Uragan's technologies can be applied in a highly effective way to crystal wine tasting glasses, eliminating over 99.00% of bacteria, mould, fungi, yeasts, pollen and mites thanks to integrated osmosis and the revolutionary ozone system.

The date is confirmed for next October at Rho Fiera Milano, stands E12-E21-G12-G22, Hall 24, come and discover how the combination of high technology and high performance is increasingly at the service of haute cuisine.
