

Giro d'Italia is the most important home race, but mostly it is an event that has forged Italy's culture and cycling worldwide.

Once again this year we want to celebrate the first of the three Grand Tours with a themed version of our best-selling model, the Exceed ULTIMATE, dedicated to the magnificent Stelvio summit. A subtle and stylish touch to recall the best of the Made in Italy.

The Exceed ULTIMATE is a shoe born within the Pro Peloton. With input from Olympic Champions and high ranked World Tour teams, the Exceed ULTIMATE is raced by over 100 World Tour riders that recognise to it the incredible power transfer, comfort and fit as best in class.

With this already rich racing pedigree, the Exceed ULTIMATE makes history as the shoe behind all three of Team Jumbo-Visma's 2023 Grand Tour wins. Ridden by Primoz Roglic, Jonas Vingegaard, and Sepp Kuss, during their winning campaigns at the Giro d'Italia, Tour de France, and Vuelta a España, the ULTIMATE proves its place on top step at the world's toughest races.

At the basis of the Exceed ULTIMATE there is our proprietary monocoque carbon chassis. The visibly exposed carbon is a reminder that the construction and assembly of our shoes is fundamentally different to all other mainstream brands.

True to our minimalist design ethos, the Exceed ULTIMATE Stelvio Special Edition is finished in a clean white microfiber with pink details and white Li2 dials from BOA® Fit System.

The shoes will be produced in limited quantities that will be available either on our website or at our brand's best retailers around the World.
