

Barista Attitude at Internorga 2025: technology and experience at the service of baristas

From March 14 to 18, 2025, Barista Attitude will be at Internorga 2025 as a sponsor of the National Championship Final, inviting media, professionals, and coffee enthusiasts to discover and experience its innovative solutions. During the event, visitors will have the chance to explore and test two of the brand's most advanced products: Tempesta, the espresso machine that combines ease of use with cutting-edge technology, and Faro, the next-generation grinder that ensures precise and uniform grinding.

This year, Tempesta and Faro will also be available at the SCA Bar, located near the championship area, where industry professionals can personally test the performance of these state-of-the-art solutions. The SCA Bar will serve as a key meeting point for those looking to experience the latest innovations and highest quality in the world of coffee.

Faro will also be available for grind-by-weight testing, allowing baristas, roasters, and equipment dealers to try the grinder with their own coffee. To book a session and test the Faro grinder, simply email events@barista-attitude.com. During these sessions, the Barista Attitude team will be at the SCA Bar to showcase all the features and benefits of Faro—an advanced grinder designed to optimize a barista's daily workflow.

Tempesta, equipped with a touch-screen interface, offers a seamless and intuitive user experience, enabling baristas to monitor and control every variable of the extraction process in real time. Its ability to save and replicate settings encourages continuous experimentation, making Tempesta a standout example of technological excellence and ergonomic design.

Faro, on the other hand, represents a revolution in coffee grinding. With its patented AI-assisted self-learning system, it delivers 0.1-gram precision, eliminating channelling issues and ensuring consistently uniform grinding. Additionally, Faro's ultra-quiet operation makes it ideal for maintaining a peaceful working environment. Its touch screen, featuring password-protected user profiles, enhances both security and personalization.

Let's talk coffee, tech, and performance. Join us at the SCA Bar at Internorga 2025, where you can get hands-on with Tempesta and Faro. Ready to see the difference? Book your session now and experience how Barista Attitude is reshaping the barista workflow—one espresso at a time! Write to events@barista-attitude.com

Save the date: March 14-18, 2025—join Barista Attitude at Internorga, where Tempesta and Faro are ready to revolutionize both barista work and the passion for coffee.
