

Performance without limits: HLF 3700 at the NRA Chicago

Espresso, lattes, and cold drinks with impeccable quality – from 17 to 20 May at Booth 7666
– North Building.

From 17th to 20th May, visitors to the National Restaurant Association Show in Chicago will have the opportunity to see the HLF 3700 in action — the superautomatic machine designed for maximum versatility, consistent quality, and a full range of hot and cold beverages.

At stand 7666 – North Building, attendees can experience the machine's capabilities firsthand. Equipped with a dual milk module, the HLF 3700 is engineered to meet the demands of bars, hotels, cafés, and high-traffic service environments. Every beverage dispensed — from authentic Italian espresso to perfectly frothed milk and even cold drinks — is crafted for consistency, flavour, and impeccable presentation, whether for a quick break or a longer moment of relaxation.

Equipped with an intuitive 10" touchscreen, twin coffee hoppers, and a self-cleaning system, the HLF 3700 ensures maximum efficiency and convenience. Thanks to the integrated cleaning tank, it can perform automatic cleaning based on a preset internal calendar.

With advanced technology and automated management features, the HLF 3700 is the ideal solution for those seeking high performance and ease of use in a compact design. Users can easily customise each drink, ensuring excellent results even in high-volume environments.

Join us in Chicago from 17th to 20th May at stand 7666 – North Building to discover the future of automatic beverage dispensing, brought to you by HLF.
