Tour de Pologne secures place in 2026 UCI WorldTour

The world's top teams will return to Poland as the Tour de Pologne continues its WorldTour legacy, having secured a confirmed spot on the 2026 calendar.

Warsaw, 18th June 2025 - The UCI Management Committee has officially confirmed the 2026 UCI WorldTour calendar, with the Tour de Pologne once again featuring among the sport's most prestigious stage races. Scheduled for 3–9 August 2026, Poland's flagship race remains one of the top-tier events on the global cycling stage.

First included in the UCI WorldTour (formerly the ProTour) in 2005, the Tour de Pologne has spent the past two decades evolving into a benchmark for professional race organisation. It has become a key summer fixture for WorldTour teams and up-and-coming talents, all of whom compete for the highly sought-after ORLEN yellow jersey representing the GC leader.

*"During last week's UCI Board meeting, the WorldTour calendar was confirmed, including the Tour de Pologne. The race is one of the world's top 15 stage races, featuring riders from 12 countries. The next Tour de Pologne will take place from 3–9 August. All races must meet certain criteria, and we are very happy that the Tour de Pologne fulfils them and remains on the calendar of the world's best races," said **Agata Lang-Lelangue, Vice President of the Tour de Pologne and UCI board member.***

As the most prestigious stage race in Central and Eastern Europe, the Tour de Pologne continues to serve as a key proving ground for emerging talent and a high-stakes battleground for the sport's biggest names. Its ongoing inclusion in the UCI WorldTour elevates Poland's profile on the global stage and guarantees the participation of all WorldTour teams, ensuring a world-class peloton year after year.

Before the 83rd edition in 2026, fans can look forward to this year's race, which takes place from 4–10 August 2025. The route, unveiled last week on TVP Sport, starts in Wrocław and finishes near the Wieliczka Salt Mine, blending Poland's iconic heritage with elite-level competition.
