

Maurizio Fondriest presents the new Fondriest Bici gravel bike and the official Q36.5 jersey at the 2025 Italian Bike Festival

On Friday, September 5th in Misano, the world champion will unveil, for the first time, the bike he'll ride in the Gravel Burn and the new technical jersey designed by Q36.5.

Maurizio Fondriest will be a key figure at the Italian Bike Festival in Misano Adriatico with the official presentation of the new gravel bike by Fondriest Bici and the technical jersey created in collaboration with the Q36.5 brand. The event is scheduled for Friday, September 5th at 2:20 PM at the Fondriest Bici stand, where the former world champion will exclusively reveal the new bike — designed to tackle the most demanding challenges on gravel and mixed terrain — along with the design of the technical apparel he'll wear during the upcoming Gravel Burn.

*"The Gravel Burn will be much more than just a race — it will be a way to rediscover cycling in its purest and most authentic form, away from paved roads and the norms of traditional competition," says **Maurizio Fondriest**. "It will also be a journey back in time, a way to relive some of the most intense moments of my career. The new gravel bike we're presenting was born from this very spirit: a machine capable of handling any type of terrain, with top-level performance and a truly authentic soul. And thanks to our collaboration with Q36.5, I'll be wearing a technical jersey that embodies the same philosophy: essential, high-performing, and built to endure. I'm proud to say that the jersey will also feature the logos of the brands that — in addition to the aforementioned technical partners Q36.5, FSA, Vision and Fondriest Bici — have supported this adventure: Trentino Marketing, Alpecin, and Banca Mediolanum."*

So save the date: Friday, September 5th at 2:20 PM at the Fondriest Bici stand, for an exclusive first look at the gear that will accompany the Ronse world champion on a new and exciting off-road adventure.
