

The best rides are the ones you never want to end.

Entirely designed and crafted in Italy, the new **Halo Collection** is Nimbl's apparel system for riders who value comfort, freedom, and the experience of the ride as much as performance itself.

Created for long summer days, Gran Fondos, weekend adventures, and countless hours in the saddle, Halo combines advanced thermal regulation, breathable Italian fabrics, and endurance-focused comfort to help riders stay cool, comfortable, and focused from the first kilometer to the last.

At the heart of the collection is **Halo Air Flow™**, Nimbl's proprietary ventilation technology developed to maximize airflow and cooling during prolonged efforts. Combined with premium Italian knitted and micro-mesh fabrics, the system creates a stable microclimate against the skin, helping maintain comfort across changing temperatures and riding conditions.

Cut in Nimbl's signature **ProFit** silhouette, the **Halo Jersey** delivers a sleek athletic fit designed to move naturally with the body without the restrictive feel of an aggressive race fit. Solar Shield manages thermal regulation, accelerating heat dissipation and reducing the impact of solar energy during summer riding conditions. Rider-focused details include a **4-pocket storage** system with an integrated aerodynamic spine pocket, a **Camlock zipper** for quick ventilation adjustment, **360° reflective detailing**, and **UPF 50+ protection**.

The **Halo Bib Shorts** are built around the all-new **Halo Pad**, an endurance-specific chamois developed with Elastic Interface® to provide support and comfort during long-distance efforts. The high-density pelvic support, adaptive construction, and perforated eco-fabric layers of the Halo Pad reduce pressure and friction while maintaining thermal stability. The bib shorts are constructed with premium Italian fabrics and Halo Air Flow™ technology for breathable support, adaptive compression, and unrestricted mobility.

Like every Nimbl product, the Halo Collection is crafted with premium materials and developed to deliver durability, precision, and uncompromising quality.

Halo Collection is available [online](#) in dedicated Men's and Women's versions.

The Essentials

- Halo Air Flow™ ventilation technology
- ProFit endurance-focused silhouette
- Thermal Regulation — Solar Shield system
- Premium Italian knitted and micro-mesh fabrics
- Halo Pad endurance chamois developed with Elastic Interface®
- 4-pocket storage system with aerodynamic spine pocket
- UPF 50+ protection
- 360° reflective visibility details
- Nimbl Crash Repair Program
- 100% Made in Italy
