

River&Peaks powered by Dolomia: an event built together

Partners, institutions and local communities united for a gravel weekend in the heart of the Friulian Dolomites.

River&Peaks powered by Dolomia was born from the idea of creating something that goes beyond a simple gravel race. It is a project designed to bring together sport, territory, outdoor culture and community in the heart of the Friulian Dolomites, transforming every route into an authentic experience shaped by nature, effort, discovery and a deep connection with the landscape. Behind all of this stands a network of companies, partners and institutions that have chosen to share the same vision, helping make the first edition of the event possible.

Alongside **title sponsor Dolomia**, River&Peaks is supported by a network of partners that share a common vision of outdoor culture, sustainability, exploration and community. **Specialized, CMP, Ciclo Promo Components with Maxxis, Topeak, Campa Bros, CRICH, Menabrea, Autopiù, Kometa and Veneta** each bring their expertise, products and passion to the event, helping create meaningful experiences connected to cycling and the territory. Together, they help transform River&Peaks into more than an event: a collective project that celebrates the Friulian Dolomites through gravel riding, discovery and shared experiences.

Each partner plays a role in shaping the River&Peaks experience. A tangible example is the official **Goodie Bag**, designed to accompany riders and participants throughout the weekend. For its inaugural edition, the event in Claut will provide participants with a mix of technical products, local flavors and outdoor culture. Inside, riders will find a **CMP technical T-shirt** designed for sport and outdoor activities beyond race weekend, together with a **Specialized rider kit** featuring a gravel-road mudguard and a practical pouch for mobile phones and documents. Also included is **Dolomia still and sparkling water**, a direct expression of the territory hosting the event, alongside **CRICH biscuits and Sfogle Dorate** crackers, symbols of energy, taste and sharing. Completing the kit is a **can of Menabrea**, ready to be enjoyed in the festive atmosphere that will accompany the weekend. The Goodie Bag will be distributed at the Claut Ice Stadium during race office opening hours.

Alongside its partners, the event also benefits from the support and patronage of institutions and local organizations that believe in the project's value and in sport's ability to promote the territory in an authentic and sustainable way.

River&Peaks powered by Dolomia is organized with the support of **Io Sono Friuli Venezia Giulia, the Municipality of Claut, the Municipality of Cimolais, the Friulian Dolomites Natural Park, the Italian Cycling Federation (FCI), and the Consortium for the Industrial Development of the Province of Pordenone**. A diverse group of organizations united by a common goal: transforming the Friulian Dolomites into a place to experience, ride and discover.

A collective project that on June 6–7 will bring athletes, riders and visitors to Claut to share an authentic experience where nature, territory and outdoor culture come together.
